

Pruning Shear
SHARP

RH-3108

- Rust-resistant stainless-steel blades which are extremely sharp and durable for easy and smooth cut
- Easy action spring gently opens blades after each cut to minimize fatigue
- Light-weight plastic coated steel handles for comfortable grip
- Sharp, high-grade hardness blades ensure quick and precision cuts, suitable for light branches of trees, rose bush, shrubs, etc.
- Easily-opened locking mechanism keeps the sharp blades securely closed when not in use which minimizes the accidental injuries
